She mentioned that anyone should be able to use the BART system in its intended manner if they pay their fare and follow the rules of conduct. Aleta Dupre would like to see BATF members be more engaged externally in showing BART our needs as a larger community. She asked for BART to have full and equal standing and asked the community to help her to get there.

Joshua Saunders mentioned El Cerrito del Norte Station completed its modernization and asked if El Cerrito Plaza Station will have any modernization done.

- Pilot projects
 - New pilot approach overview

- 2025: Text experience at complex transfer stations
- 2026: Test experience on local and intercity routes
- 2025 and on: Advance agency-led and funded capital projects using new standards

Hillary Brown thanked Jumana Nabti for the presentation.

Clarence R. Fischer had three concerns/thoughts:

1. Will BART staff be in touch with bus operators once this project has been implemented, such as when changes to the bus routes are going to happen
2. May want to consider showing different color coordination schedule times as not all four-colors will have the same schedules
3. Bus route 376, for example, at El Cerrito del Norte only operates evenings and nights and there should be a specialized sign to let passengers know that bus #376 only runs evenings and nights

Daveed Mandell said people who are visually impaired or blind should have been more actively involved with the wayfinding project. He mentioned during the presentation, there was description of the color of the wayfinding signs but was concerned for people who are visually impaired and blind may have difficulty seeing the color of the sign or cannot see the color of the sign at all.

Sam Buman ask about adding agency names on the signages for people who are new to the area and Jumana Nabti mentioned the logos of the agency are on the signs.

Herb Hastings would like to see the names of the BART station on the wayfinding at the bus stops.

Danny Kodmur asked if this project is working with other agencies that does pick-up and drop-off at BART stations other than AC Transit. Juma Nabti mentioned BART staff are working with all other agencies.

Joshua Saunders asked how the wayfinding information will be communicated for people who are visually impaired or blind. He asked if there would be audio and/or will there be information provided on the BART's website.

Aleta Depree expressed how she likes the colors and the consistency of the signs and stated consistency is very important throughout the BART system so that riders can get used to the pattern for information needed. She did express we are creatures of habits but would like to have the original signages around to keep with the history of BART.

5. Accessible Improvement Program (AIP) update

Ahmad Rassai listed current BART stations under construction, Castro Valley, Lafayette, Rockridge, Richmond, North Berkeley, MacArthur, Fruitvale, San Leandro, Bay Fair, Hayward, and Fremont.

He gave general scope of work at all BART stations:

- Replacement of curb ramps, sidewalks, accessible paths, loading zones at bus and passenger
- Installed new wall protrusion detection
- Replacement of courtesy phones
- Replacement of handrails
- Installation of elevator lobby light
- Remove and install new stainless steel composite panels inside the stations

Daveed Mandell is really glad that the handrails at the stairways are being installed properly.

Sam Buman asked about El Cerrito Plaza accessibility updates. Ahmad Rassai mentioned El Cerrito will be in the future updates and a plan is being drafted up along with funding.

Herb Hasting expressed that the lighting can be brighter at some of the BART stations, especially as the day gets darker sooner and/or it rains for safety reasons. Ahmad Rassai agrees that safety is the number one priority.

Elena Van Loo listed the accomplishments that BATF have done from 2023 to 2024:

- BART uses the Salesforce system to communicate with passengers, as its Customer Service tracking program.

Christine Arseneault asked whether BART Accessibility Task Force (BATF) members can file a claim. Elena Van Loo stated the BATF members and/or members of the public can reach out to Customer Access and Accessibility Department to file complaint and forward to the proper department to process the claim.

Christine Arseneault asked how the accessibility related claims are resolved when there is an open case or claim. Agenda 4

BART ACCESSIBILITY TASK FORCE (BATF) MEMBERSHIP APPLICATION FORM

The BART Accessibility Task Force advises the BART Board of Directors and staff on disability-related issues and advocates on behalf of people with disabilities and seniors to make the BART system accessible to all.

Individuals applying for membership to the BART Accessibility Task Force must fill out an application form. Applicants must be endorsed by the members of the BATF through a majority vote after attending two out of three consecutive months. Their names are submitted by the BATF staff liaison to the BART Board of Directors for final approval.

1. APPLICANT BACKGROUND

Name: Joshua Saunders

Address: [REDACTED]

3. EXPERIENCE AND SKILLS

3.a. Names and purposes of boards, commissions, or task forces you currently serve on or have served on and its relevancy to serving on BART's Task Force (BATF). Please indicate dates of service and the positions you held, if any:

For the past two years I have cochaired the California Council of the Blind of San Francisco's advocacy committee. After a bad experience with signing up for East Bay Paratransit, I advocated for an accessible application. With the help of Ryan Greene-Roesel, the application has been created. This is an example of my persistence in achieving advocacy goals.

3.b. Why do you want to serve on and what skills do you bring to the BART Accessibility Task Force (BATF):

I am persistent in my advocacy as I have previously mentioned. I am a legally blind attorney. It's important to me that BART is both safe and accessible for the disabled community. In addition to my vision loss, I also have some dexterity issues and an epilepsy condition. This helps me understand that people's lives are complicated and that BART need to be aware of the complexity and needs of BART's riders.

3.c. How would your membership assist in establishing communication with the disability community:

I am a member of the California Council of the Blind where I'm cochair of their governmental affairs committee. We advocate for the needs of blind individuals with the state government. This may provide me contacts that will be helpful when dealing with issues that the disability committee has concerns about regarding BART.
