

BART Agreement Number: 6M8119
Work Plan No. B.14 – NS MUX

Approval Date: 12/01/17

Scope:

The objective of this Scope of Services is for A&E Consultant, AECOM, to provide services to BART for the NS MUX Project (20LT-000) which requires new train control MUX cabinets to be installed in train control rooms (TCR). BART Train Control Engineering (TCE) requests AECOM to develop Electrical and Grounding design drawings for use by BART's Train Control Maintenance staff, to install raceways, power and grounding cables to connect these cabinets to both essential and non-essential power panels.

Prime: AECOM/TSE

Subconsultants: None

Total Work Plan Value: \$262,809
