

**BART Agreement Number: 6M8134**

**Approval Date: 09/30/22**

**Work Plan No. A.13-01 Engineering Support to DSDC on Market Street Escalators and Canopies Contracts**

**Scope:**

Scope of services will include support to STV of as-needed design services during construction, mainly in structural engineering and other engineering disciplines as follows:

- Perform field visits and inspections as required to understand construction/design issues
- Assess differing site conditions and provide assistance with resolution of design/construction conflicts as encountered including review of corrective solutions
- Review RFI responses
- Review changes and assist with drawing and specification changes
- Perform other services as requested or required to support construction completion
- Attend special meetings as required
- Provide other technical support as required

The final resolution/response will be approved by STV and BART Project Manager before returning to the Contractors for implementation and HDR will not be held responsible for any services performed by STV or the Contractors, including the design and/or implementation of any solutions provided by HDR.

**Prime:** HDR
