

BART MARKET STREET STATIONS ENTRANCE PROJECTS Neighborhood Notice and News

April 2023

BART to begin canopy construction at two new locations on Market Street

Community Stakeholders:

In the coming weeks BART will begin construction of two new canopy locations along Market Street.

- Corner of Market & Montgomery on the north side – begins week of April 17, 2023 (Montgomery Station)
- Mid-800 block of Market on the south side near Walgreens and Levi Store – begins week of April 24, 2023 (Powell Station)

Prior to the start of canopy construction on the street level, the contractor will build work enclosures around the two BART entrances listed above, closing off all public access from the station and street level at these station entrances for approximately 6 months. The work enclosures located on the city sidewalk will consist of secured 8 ft. chain link fencing to allow for safety and transparency of the site and pedestrians. The contractor will establish a 5ft to 7ft pedestrian pathway between the work enclosure and the building frontages along Market Street. The work enclosures at both sites will remain in place until canopy construction has been completed.

Construction hours during the weekdays will be from 7am to 7pm. There may be the need for occasional weeknight work from 8pm to 5am, but no weekend work is planned at this time. Construction-related noise will not exceed contract limits. Use of crane, forklift, compressor, rivet buster and other hand tools will be used to complete the work. The canopy contractor will be responsible for daily site maintenance and trash and graffiti removal on the work enclosure structure and project-related signage.

Over the next four years BART will construct a total of 19 canopies on Market Street over downtown station entrances. To date, five of those will be officially complete by end of April 2023. As part of a separate project, new escalators will be installed at each of these locations following the canopy construction. New canopies will protect new escalator equipment, protect employees who open and close the station, and reduce station maintenance costs. The new canopies will also provide additional wayfinding, lighting, real time information and security cameras on Market Street.

We thank you for your patience as we work to complete this important construction project. For more information on this project visit: bart.gov/about/planning/sfentrances
