## New Dog Park Is Open

June 30, 2010

Dogs and their owners now have a new place to play in Fremont Central Park. Located adjacent to the Fremont Police Station, the new dog park is actually two parks side by side designed to separately accommodate large and small dogs. This new facility comes with 185 parking spaces and replaces the old dog park located southeast of the softball complex. The old dog park will close on Friday, July 2.

The new park features canopies for shade as well as seating areas. Water fountains for dogs, equipped with stationary drinking bowls, are also available at the park. The City of Fremont contributed funding for enhancements to the park.

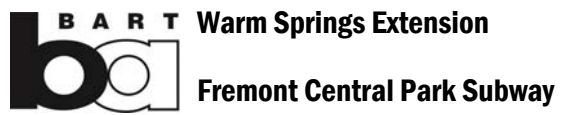

Completion of the new park fulfills BART's commitment to build and open the new facility before it closed the old park.
